Updated : Saturday 12 June 2021

Maybe even better than free.

So try our free and simple filehosting service now. Using file, you can circumvent those limits without paying to upgrade your team chat service. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. Keep your files private, or send your download links only to friends or family. There are no restrictions on the number of times a file can be downloaded. Alternatively you can choose to share your download links on blogs, forums and social networking sites. It isalso allowed to link to the download page from websites and communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more). When you use file, you avoid storing the file you're sendingin your cloud storage or mail server. File is free to use with no gotchas and no hidden fees. You decide who you want to share your files with. Your wallet willbe none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, thenfrom our servers to your friends device. Any file in any format can be uploaded and downloaded for free. You don't need any special software installed to beable to download your files. We have no file size limit. Files can be downloaded from any computer from our high speed servers. Why pay storage fees for afile that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps.filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. The cost of that data transfer iscovered by your internet service or the data plan on your phone.
